EDUCATION

Boston College | Chestnut Hill, MA

Expected May 2026

B.A. in Computer Science - GPA: 3.68/4.0

- **Courses:** Computer Systems, Computer Organization, Software Engineering, Computer Networks, Algorithms, Data Ethics and Society, Tech and Culture, Natural Language Processing, Operating Systems

TECHNICAL SKILLS

Languages: Go, Python, C, C++, Java, SQL (Postgres), JavaScript, HTML/CSS

Frameworks: Gin, Django (REST Framework), React

Developer Tools and Libraries: Git, Docker, Redis, Axios, JWT, spaCy, scikit-learn, pandas, Tailwind CSS, Figma

RELEVANT EXPERIENCE

Boston College Department of Computer Science | Chestnut Hill, MA

August 2025 - Present

Undergraduate Teaching Assistant for Computer Science 2

- Lead a weekly discussion section of 15+ students, clarifying challenging concepts and walking through programming examples in C++, and host office hours throughout the week to provide one-on-one support for students.

XYZ Homework | Remote

June 2025 - August 2025

Software Development Intern

- Programmed Calculus 1, Calculus 2, Linear Algebra, and Multi-Variable Calculus questions and wrote detailed solutions using the IMathAS assessment tool, PHP, and GeoGebra API integration, ensuring balanced difficulty and accurate solutions.
- Performed peer reviews, correcting errors in the math logic, detailed solutions, and the styling of written questions.

PROJECTS

Lembas Links | Personal Project

April 2026

- Built a REST API in Go using Gin with Redis caching, API key authentication middleware, and rate limiting, supporting redirection via a Postgres and Redis backend.
- Developed an NLP preprocessing tool in Python using spaCy, pandas, and the Claude API to generate memorable, thematic URL slugs from a corpus of Lord of the Rings movie quotes, combining keyword extraction, named entity recognition, and fuzzy matching.

BitTorrent Client | Personal Project

March 2026

- Engineered a fully functional BitTorrent client in Go that downloads Debian by implementing the peer-to-peer protocol from scratch, including tracker HTTP communication, TCP peer handshaking, SHA-1 verification, and concurrent piece downloading across live peers.

PeerAssess | Software Engineering Group Project

May 2025

- Created a full-stack Django application in a team of 4 using an agile process, designing the database schema with Django ORM models and building the frontend interface for the team management pages.

LEADERSHIP EXPERIENCE

Boston College Campus Activities Board | Chestnut Hill, MA

September 2022 - Present

Operations Coordinator for Trips And Excursions

- Communicate with vendors to plan off-campus activities, lead internal bonding experiences for the Trips and Excursions department, and staff campus-wide events aimed at promoting inclusivity for students on campus.

Boston College Freshmen League | Chestnut Hill, MA

October 2025 - Present

Freshman League Captain

- Facilitate and guide weekly discussions with a group of freshmen guys about life at Boston College, including topics such as mental health, classes, and social life.
